PROJECT : BUZZ GYM

Buzz Gyms' 18,000 square foot fitness club on the rooftop of the Westgate Shopping Centre includes two immersive studio spaces, top of the range equipment, live djs, a huge free weight training zone complete with Eleiko performance equipment and a fantastic cross training area.

To help complete this exciting £1.5 million state of the art gym, Garran lockers were approached to design, manufacture and install bespoke storage lockers for both the male and female changing room areas that match the high quality seen throughout the

Having worked closely with gyms, sports facilities and leisure centres for several years Garran were chosen and set out to design and manufacture a selection of lockers and seating for the project.

With the requirements set, a selection of our Premier lockers were the product of choice, with their robust Solid grade laminate doors and premium quality finish along with a selection of locker stands and stand seating to complete an installation that met all the requirements.

PROJECT : THE GRANGE UNIVERSITY HOSPITAL

We are proud of our team at GARRAN for helping The Grange University Hospital open four months ahead of schedule, supporting Aneurin Bevan University Health Board in responding to winter pressures and the coronavirus pandemic.

Our recent installation and well planned phased install of 1000No. Multi-purpose steel lockers and benches look amazing in this brand new building!
