OUR STORY

For over 50 years, Garran has provided high quality lockers and changing room solutions. From our UK manufacturing facility, Garran designs, manufactures, and installs high-quality locker and workspace furniture solutions. As one of the UK's largest locker, storage and workspace manufacturers, we supply all industry sectors, including Retail, Leisure, Education, Office, Emergency Services and Healthcare.

Our UK facility exceeds 40,000 square feet supporting our capabilities to design from initial product conception through to completion of a unique tailor-made solution.

Our expertise in the latest technologies and processes enables us to provide you with the latest on-trend products.

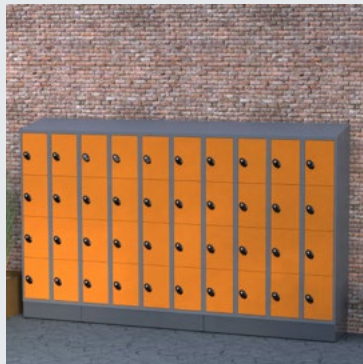

All supported by our team of industry experts and exceptional customer service team, ensuring we help you create your perfect space.

SMART LOCKERS

UNLOCK A THOUSAND POSSIBILITIES

Store personal belongings, distribute products, rent company resources and distribute packages with ease using our innovative locker management software.

All of which can be managed and accessed through a smartphone app or online portal.

EVENT LOCKERS

RENTAL | PUBLIC SPACES | VISITORS | PASSENGERS | EVENT

Enhance your event with our intelligent event locking solution, providing not only convenience for your visitors but also a substantial return on investment.

Take charge of your pricing with complete control, setting and defining parameters seamlessly through our user-friendly admin platform. You will boost your business revenue with confidence as the Rental lockers is investment that pays for itself.

Rent or reserve?

You determine whether visitors can rent a locker on the spot, reserve a locker beforehand, or to have both options available. Through your admin portal you can easily set the parameters so that guests can reserve and / or pay for lockers in advance of their visit.

Access the locker

Visitors don't have to download or install anything: QR code scanning, or simply operate their locker via your own locker website. Your guests only need an email address and a phone with an internet connection to be able to rent, open, close and seal their locker.

Easy locker use for your visitors, with QR code

1. Simply scan the QR code: claim, reserve, open / close, leave, pay.
2. Share the locker with someone by entering their email and click on the Share button

MODE LOCKERS

OFFICE | EDUCATION | HEALTHCARE | LEISURE

By providing a convenient and secure location to store personal items, our MODE SMART Lockers are perfect for the modern workspace, hospitals, gyms, schools and universities.

Our cloud-based software allows lockers to be managed centrally.

- Admins simply log in with their PC or laptop to manage and access lockers
- Integrate into existing systems / RFID cards

ASSET MANAGEMENT

Have complete control over the distribution of company resources to your employees.

Overview

- **Pre-load the locker with assets**
- **Administrator issues receiver with access code**
- **Users can return the assets to the same locker by a certain date with a pre-set access code**

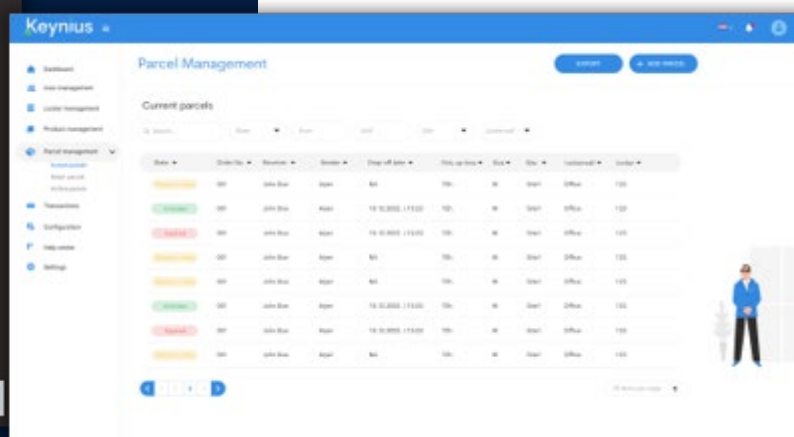

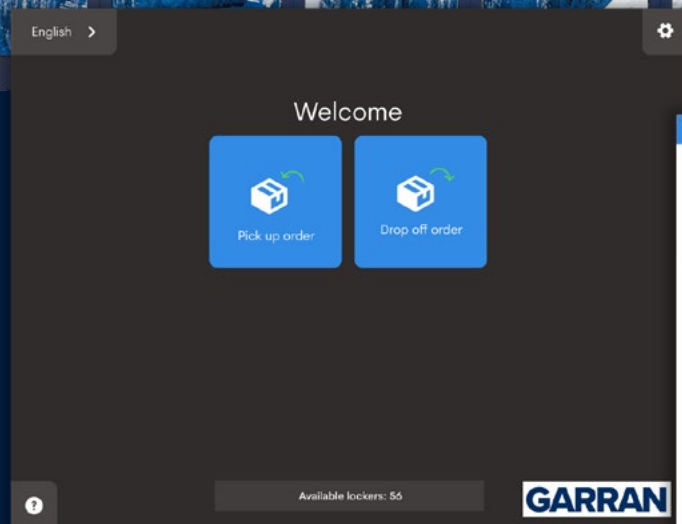

The administrator will have complete visibility into locker inventories and be able to view both real-time and historical reports on resources used in the lockers.

Lockers can be equipped with electrical outlets allowing users to immediately charge rechargeable devices ready for the next user.

VENDING & RENTAL

- Sell or rent products, company resources or other items through a safe locker
- Optional temperature control function available
- Full control over use/users and locker inventory management

ELEMENT SMART LOCKERS

CLICK & COLLECT

- Perfect for distributing – receiving, sending, returning, of packages and other goods
- Track your assets and parcels with our innovative cloud-based management system
- Outdoor lockers available

PROJECTS

FORDS PACKAGING SYSTEMS

For their Head Office we manufactured and installed a series of bespoke, hygienic protective screens together with our brand-new Dual sit stand bench system. Using our innovative technology and working solutions, they have achieved the perfect working environment – designed to enhance employee wellbeing.

FORDS
Shaping the Future

Testimonial

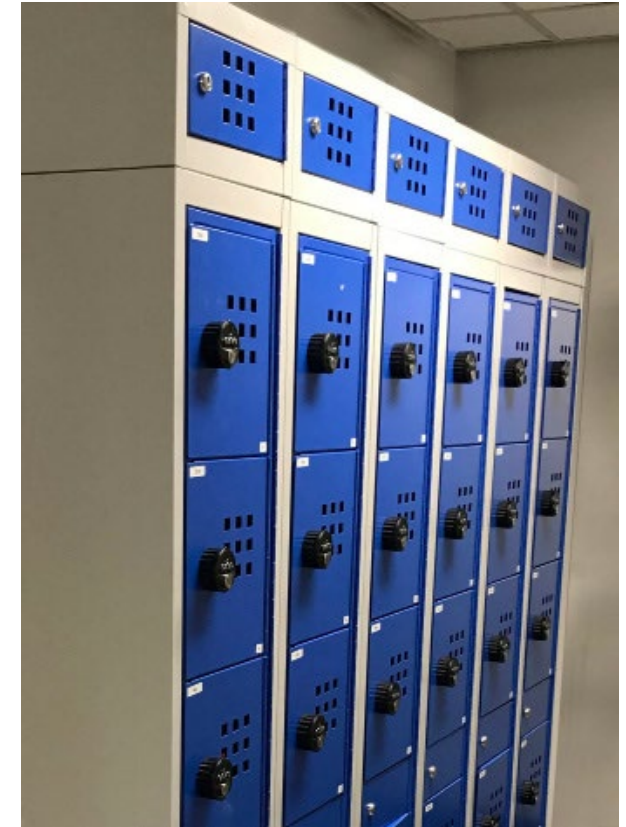

We worked with Garran to provide our new desk and chair solutions. We knew we wanted sit/stand desks due to the many health benefits and Garran were superb in listening and understanding our requirements and sourcing a great solution for us. They provided CAD drawings based on our preferred new office layout and were happy to work with us and to tweak these layouts until we were entirely happy. The installation was very smooth and efficient and the new desks and chairs have really given the office a sleek and professional feel and people love the option of being able to customise the height and sit or stand as preferred. The communication with Garran was great throughout and I'd highly recommend them for any workspace requirements.

Gillian Plummer, Chief of Staff.

NORTH WALES POLICE

North Wales Police new £21.5m state of the art, eco-friendly Command and Custody Facility. Having worked with major Police Forces across the UK, GARRAN was approached to provide storage lockers for staff and bespoke charging lockers.

Installation of over 200No. lockers in the 8,600m² building providing facilities for over 248 police.

BLOK GYM

Block gym have added another location to their growing portfolio of gyms, the latest located in Manchester is the third location for BLOK and the first outside of the capital.

The new space combines fitness, fashion, art and design all under one roof, developed by Capital and Centric Property Developers.

Housed in Ducie Street Warehouse, an old disused Victorian mill filled with the icon bricks of Manchester, GARRAN were specified by Daytrip Studios to design, manufacture and install bespoke lockers that would match the unique style of the facility providing secure storage to all who attend the 180 classes each week.

Product

Bespoke lockers and benches with accessories. Keyless custom made laser cut steel doors finished in blue passivated and lacquered.

TOTTENHAM

As industry specialists we were specified by **BASE Contracts and F3 Architects** to take on this multi-million pound project.

Product

Concealed personal storage with aircharge, charging points and locking drawer. Customised media unit. LED lighting system.

SOPWELL SPA

The project brief for AB Hotels was to design, manufacture and deliver bespoke fitted lockers. Ensuring highest quality.

Product

Z Lockers. Brushed brass engraved number plates and matching handles. RFID push button locks.

GLOBAL INVESTMENT

We designed, manufactured and installed products over 4 floors and are the first UK company to manufacture concealed frame cantilever seating.

Product

Wet Area Lockers. RFID Lock System Stainless steel fittings – hooks and hangers

TESTIMONIALS

“Lockers and Cloakroom equipment supplied and installed by Garran have been an important addition to the prestigious Sports facility at the University of South Wales. As the main contractor Kier Construction was very pleased with the design element, customer service and attention to detail.”

KIER CONSTRUCTION

“Garran have been a pleasure to work with providing Pure Gym with excellent service, value, quality, exceptional communication and delivery skills. We are looking forward to developing our ongoing relationship with Garran.”

PURE GYM

“We’ve never had the slightest problem since our lockers were fitted seven years ago. They look as great today as when we opened.”

Alan Gilbert : Facilities Manager
THE PETCHEY ACADEMY

“We worked with Garran to provide our new desk and chair solutions. We knew we wanted sit/stand desks due to the many health benefits and Garran were superb in listening and understanding our requirements and sourcing a great solution for us. They provided CAD drawings based on our preferred new office layout and were happy to work with us and to tweak these layouts until we were entirely happy. The installation was very smooth and efficient and the new desks and chairs have really given the office a sleek and professional feel and people love the option of being able to customise the height and sit or stand as preferred. The communication with Garran was great throughout and I’d highly recommend them for any workspace requirements.”

Gillian Plummer, Chief of Staff.

“Garran lockers recently manufactured and installed bespoke lockers and changing room equipment at our new state of the art sports facility at the University of South Wales. We are extremely pleased with everything that Garran provided, the lockers look phenomenal and match the high quality specification that we required.”

Steve Savage Sport & Business Development
Manager UNIVERSITY OF SOUTH WALES

Garran were chosen for the quality of their product & attractive finishes for an upgrade to the 6th Form Centre. The flexible range of locking systems was an added benefit. Garran provided a professional and helpful service from point of contact through to installation. The new lockers have been well received by students and have helped make a real difference.”

Jonathan Crisp Director of Finance & Operations
BROMLEY HIGH SCHOOL

“We sourced Garran at Leisure Industry Week and could clearly see the quality. I thoroughly enjoyed working with the company and would certainly recommend them.”

Anthony Woodhouse : General Manager
RAMSIDE HALL HOTEL, GOLF & SPA

“It has been a pleasure to work with the Garran Team, nothing was too much trouble, with the project delivered to a very high standard. I would thoroughly recommend to any leisure facility.”

David Waite : Managing Director
WELLINGBOROUGH GOLF CLUB
