Garran have over 50 years' experience in the locker industry and this experience gives us the knowledge and expertise necessary to design, build, deliver and install high quality products whilst providing exceptional service and aftercare.

We specialise in supplying to a broad range of industries which include education, fire and police services, hospitals, hotel and leisure facilities and retail to name but a few. If our extensive range of lockers does not have exactly what you are looking for, we can design a bespoke solution to suit your specific needs.

To speak to one of our experienced sales team, please contact us on 08456 588600 or email us on sales@garran-lockers.co.uk

Alternatively, you can visit our website at www.garran-lockers.co.uk. Here you will find further information about the company, as well as our full range of products which are available to purchase online.

FEATURES

GARRANLOCKERS

Skid rail bottoms - One piece locker base is designed to give additional strength and also has the benefit of glides to protect the floor and allow flow of air to assist drying under the locker.

Lock enclosure - The lock enclosure is designed to fit a self-adhesive number plate or your own name card.

Integral sloping top - The sloping top is an integral part of the locker side and not an attachment that sits on the top.

Stiffened doors -All doors have full length stiffeners made of the same gauge material as the door.

Double edged pillars - Door pillars are safety edged on all exposed edges, both on hinge side and door edge for extra strength and protection.

CLASSIC
LOCKERS

Our standard classic lockers are constructed from spot welded mild steel and are available with flat or integral sloping tops.

CLASSIC LOCKERS

As a manufacturer we can offer bespoke lockers, so please contact us if you need a price for a non-standard product.

Our 10-tier Classic locker has 10 equal doors of 169mm high and comes supplied with no internal fittings.

PREMIER LOCKERS

Our Premier range of lockers offers a hard wearing solution that is as versatile as our steel range with a wide range of vibrant Arpa SGL colours to complement your interior design.

FEATURES

GARRANLOCKERS

A range of lockers with Solid Grade Laminate (SGL) doors fitted to a steel carcass with a bolt through supercoated hinge. This gives you a locker with the combined advantage of SGL doors combined with the strength of the spot welded steel carcass. The result of this marriage is an extremely robust locker built to resist vandalism at an affordable price. Available in the full range of standard sizes with a flat or sloping top. The sloping top is an integral part of the locker not just an addition.

1 TIER LOCKERS

Sizes as per the Classic Range. Internal fittings include a hat shelf at 350mm down from top, and two hooks below, or a coat rail with one hook if the locker is 450mm deep or more.

2 TIER LOCKERS

Sizes as the Classic Range. Internal fittings include two fixed coat hooks in each compartment.

3+ TIER LOCKERS

Sizes as the Classic Range. This locker has no internal fittings.

- Manufactured and constructed from 0.7 steel carcass and a 10mm solid grade laminate door (SGL)
- Ideal for the education sector or areas where the lockers are a feature.
- Hard wearing SGL means less replacement doors required.
- A wide range of vibrant colours available from our Arpa range of SGL.
- Cosmetically pleasing for highly visible areas.
- Easy to clean

Designed to hold up to 13 laptop computers, each in its own individual lockable compartment. Ideal for use in schools, colleges and workplace.

These locker compartments are cubes and available in 3 sizes and are ideal for schools. They can be manufactured in heights of 1 to 5 and in widths of 1 or 2.

Designed to hold personal effects in small individual lockable compartments, ideal for storage of handbags, phones, cameras etc.

Designed to suit the needs of children in primary, infants & junior schools. Option for either full length or 2 tier.

Designed for workshops for the safe storage of hand and power tools.

SUPREME LOCKERS

The Supreme Locker range is designed specifically for wet area use, which allows the locker to be exposed to wet or humid atmospheres for long periods & time such as leisure centres, swimming pools and spa changing rooms.

FEATURES

GARRAN LOCKERS

Ultimate durability for the harshest environments

- Provides a practical and cost effective alternative to more expensive stainless steel options
- The carcass is manufactured from one piece of 1.5mm aluminium flat sheet, as used in the automotive industry 5754H22. Available on all lockers up to 450mm wide by 450 deep. Carcasses, shelves, tops and bottoms are powder coated in silver grey
- This fully spot welded construction provides additional strength as well as creates smooth lines and attractive appearance whilst ensuring an easy to clean solution for high-traffic changing room environments
- Solid grade laminate doors available as plant on or inset. Plant on doors have self-cleaning wet area hinges. Inset doors have semi concealed hinges. Doors are manufactured from 10mm Arpa Athlon range with bull nosed edges
- Ideal for all areas with wash down and high hygiene requirements:
 - Food processing plants
 - Dairies
 - Abattoirs
 - Pharmaceutical industry clean areas

COMPLIMENTARY PRODUCTS

An extensive range of cloakroom units with matching SGL slats is available, including wet area benching. Single and double sided cloakroom units and hook boards. End panels if required for aesthetic reasons are available.

The TITAN and TITAN PLUS offer a more robust locker, and are the tough guys in our brochure.

The TITAN can help eliminate the damage that can often happen when lockers are badly used. The doors and stiffeners are made from 1.2mm steel and are safety edged, then secured to specially strengthened pillars.

These lockers are ideal for schools, colleges, or any area where there is heavy usage or where damage may be a re-occurring problem.

Titan Plus

This locker offers the same range of features and sizes as the Titan but with an even heavier gauge mild steel door.

Doors and stiffeners are made from 1.5mm gauge Mild steel.

We can offer a complete range of sizes from a full length locker to a 6 tier unit, with flat or sloping top, in sizes from 1800mm x 300w x 300d to 1800 x 450w x 450d.

TITAN & TITAN PLUS LOCKERS

The TITAN and TITAN Plus range offer a more robust locker. This is ideal for schools or any area where there is heavy usage, or where damage may be a problem. There are a wide range of sizes.

FEATURES

GARRAN LOCKERS

Benches are available in either 50mm heavy duty tube as the image of the cloakroom unit on the left or with 25mm x 50mm classic frame shown in the bench seat near left. All options are available in the colour range, with either ash slats or SGL slats.

The stand seat raises the locker 400mm off the floor and comes with a 300mm deep bench for added locker room functionality.

Stands are available for all lockers in a range of colours and sizes.

CLOAKROOM COLLECTION

Double or single cloakroom units can be supplied in a variety of sizes to suit your needs. Manufactured from 50mm round heavy duty tube, with ash or sgl seating, hook board and back seat. Overall height 1675mm with a seat height of 400mm.

LOCKING OPTIONS

Camlock with 2 keys

Our 10 lever Cam Lock provides an economical locking option. Master keyes are available.

Hasp & Staple fitting suitable for a padlock

This lock fitting is suitable for use with a padlock with minimum shank of 5.8mm and maximum shank of 6.8mm. Padlocks not supplied.

Coin/Token Return Lock

Ideal where locks are shared. The key is released when the coin/token is inserted. The coin/token is returned to the user when the door is opened.

Coin/Token Retain Lock

Also suitable where locks are shared. This option allows the the coin/token to be retained as an additional income stream.

Electrical 10 Digit Lock

This is a battery operated keyless lock which can be programmed for private or public use.

4 Digit Combination Lock

This is a keyless locking solution. Master keys are available.

GARRANLOCKERS

OPTIONS AND ACCESSORIES

All lockers come as standard with either camlock with 2 keys or a hasp and staple fitting suitable for a padlock which is not supplied. Other options are available

OUR PREMIER AND SUPREME RANGE OF LOCKER DOORS ARE CONSTRUCTED USING 10MM ARPA ATHLON SGL WHICH COME WITH A WIDE RANGE OF COLOURS AND FINISHES.
